
JAMES LANE ALLEN ON "THE FUTURE CHRISTMAS"

It is not often, in the history of literature, that a writer is able to devote years of research to a subject which has been the theme of discussion and controversy. And yet the study of Christmas has been one of the most important of those topics that have interested the minds of people for centuries. The story of Christmas has been told in many ways, from the ancient festivals of the Romans to the medieval celebrations of the Middle Ages. But it is in the modern age that the story of Christmas has been given new life and meaning. The modern Christmas has been shaped by the values and beliefs of the societies in which it is celebrated. The Christmas of today is a celebration of the spirit of giving and the joy of sharing. It is a time when people come together to remember the birth of Jesus Christ and to share the joy of his life and teachings with one another. The modern Christmas has become a symbol of the hope and promise of a better world. The modern Christmas is a celebration of love and peace, a celebration of the human spirit. The modern Christmas is a celebration of the future.
