Dr. Walter Laidlaw Makes Interesting Comparisons of the Recent Census Reports and Those of Previous Years.

The growth of the nation and of the city is described in the present article. The population of the nation has increased from 165,000,000 in 1860 to 155,000,000 in 1910. The population of New York City has increased from 700,000 in 1860 to 10,000,000 in 1910.

The size of the city is compared with that of the nation. The city is larger than the state of Maine. The population of the city is more than twice that of the state of New York.

The growth of the city is compared with that of the country. The population of the country increased from 65,000,000 in 1860 to 155,000,000 in 1910. The population of the city increased from 700,000 in 1860 to 10,000,000 in 1910.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Boston. The population of the city is more than twice that of the city of Chicago.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Philadelphia. The population of the city is more than twice that of the city of San Francisco.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Providence. The population of the city is more than twice that of the city of Seattle.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of St. Louis. The population of the city is more than twice that of the city of Dallas.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Cleveland. The population of the city is more than twice that of the city of Baltimore.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Buffalo. The population of the city is more than twice that of the city of Rochester.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Detroit. The population of the city is more than twice that of the city of Milwaukee.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Newark. The population of the city is more than twice that of the city of Elizabeth.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Jersey City. The population of the city is more than twice that of the city of Bayonne.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Paterson. The population of the city is more than twice that of the city of Elizabeth.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Passaic. The population of the city is more than twice that of the city of Kearny.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Newburgh. The population of the city is more than twice that of the city of Beacon.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Poughkeepsie. The population of the city is more than twice that of the city of Middletown.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of New London. The population of the city is more than twice that of the city of Norwich.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Hartford. The population of the city is more than twice that of the city of Bridgeport.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Springfield. The population of the city is more than twice that of the city of Chicopee.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Lowell. The population of the city is more than twice that of the city of Lawrence.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Pittsfield. The population of the city is more than twice that of the city of Springfield.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Lawrence. The population of the city is more than twice that of the city of Methuen.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Manchester. The population of the city is more than twice that of the city of Nashua.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Portland. The population of the city is more than twice that of the city of Lewiston.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Bangor. The population of the city is more than twice that of the city of Bar Harbor.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Portland. The population of the city is more than twice that of the city of Lewiston.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Bangor. The population of the city is more than twice that of the city of Bar Harbor.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Portland. The population of the city is more than twice that of the city of Lewiston.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Bangor. The population of the city is more than twice that of the city of Bar Harbor.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Portland. The population of the city is more than twice that of the city of Lewiston.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Bangor. The population of the city is more than twice that of the city of Bar Harbor.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Portland. The population of the city is more than twice that of the city of Lewiston.

The growth of the city is compared with that of other cities in the country. The population of the city is more than twice that of the city of Bangor. The population of the city is more than twice that of the city of Bar Harbor.
GROWTH OF THE NATION AND GROWTH OF NEW YORK CITY

(Continued from preceding page)

Canadian United States lived in New

York in 1910, or 11.7 per cent of the total population of the United States, or about one in eight persons who were born in Canada. The city of New York has been a center of immigration from Canada, and in 1910, 13 per cent of the population of the city were born in Canada. In 1900, 11.7 per cent of the population of the United States were born in Canada, or about one in seven persons who were born in Canada. The city of New York, in 1910, was the largest urban center in the world, and in 1900, 10.7 per cent of the population of the United States were born in Canada, or about one in six persons who were born in Canada.

In 1910, the population of New York was 10.7 per cent of the population of the United States, and in 1900, 10.3 per cent of the population of the United States were born in Canada, or about one in five persons who were born in Canada. The city of New York, in 1910, was the largest urban center in the world, and in 1900, 10.3 per cent of the population of the United States were born in Canada, or about one in four persons who were born in Canada.

In 1910, the population of New York was 10.7 per cent of the population of the United States, and in 1900, 10.3 per cent of the population of the United States were born in Canada, or about one in three persons who were born in Canada. The city of New York, in 1910, was the largest urban center in the world, and in 1900, 10.3 per cent of the population of the United States were born in Canada, or about one in two persons who were born in Canada.
