Dr. Hyslop Discovers a Girl Who Produces the Most Astounding "Spiritualistic" Phenomena Yet Seen—She Does Not Accept Money, Gives Tests Only in Private, and Her Identity Is a Secret.

PALLADINO OUTDONE BY A NON-PROFESSIONAL MEDIUM

Dr. James H. Hyslop.

The photograph shows a girl who produces the most astounding "spiritualistic" phenomena yet seen. She does not accept money, gives tests only in private, and her identity is a secret.

Dr. Hyslop is an expert in the field of spiritualism. He has been investigating the phenomena of the medium for years. He has come to the conclusion that the phenomena are produced by her own mind, and not by any outside influence.

In one of his experiments, Dr. Hyslop placed a photograph of a dead person in front of the medium. She looked at it for a few minutes, and then said, "This is a picture of a man who was killed in a car accident. His name was John Doe." Dr. Hyslop knew that the name was correct, and that it was the name of a person who had died in a similar accident. The medium had never seen the photograph before.

Dr. Hyslop is convinced that the medium is a genuine medium, and that her phenomena are produced by her own mind. He is preparing to publish a book on the subject, which will be a landmark in the field of spiritualism.

The medium has been tested in many different ways, and has always produced the same results. She has never failed to produce the phenomena, and has never been caught in any kind of fraud.

Dr. Hyslop believes that the medium is one of the greatest phenomena in the history of spiritualism. She is a genuine medium, and her phenomena are produced by her own mind. The medium is a woman, and she is known to everyone who knows her. She has never refused to give a test, and she has always produced the same results.
