HOME OF PREHISTORIC AMERICANS NOW RECONSTRUCTED

"Cliff Palaces," the Strange Ruin Which the Government Has Been Restoring.

This wonderful Cliff Palace, in the Rio Grande Valley, is seen above, which was occupied by the Indians from the first to the fourteenth century. The valley is 30 miles long, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick. The ruin is about 30 feet high, and the wall of the cliff is 200 feet high. The ruins are the remains of a city of about 1,000 people, and the walls are 30 feet thick.
